Hybrid Flight

Emotional Dancefloor Atmosphere

01 BIOGRAPHY

Hybrid Flight is the project of a Berlin-based DJ and producer who has spent more than eighteen years behind the decks, from intimate club nights to festival stages. Rather than committing to a single genre, the sets are assembled around emotional arc: where a night starts, where it peaks, and what it leaves behind.

That approach took shape between two poles - an island in the north and the gray shades of Berlin - and it carries into the studio. The 2026 debut EP "Between Coasts" traces five tracks between sun-drenched afternoons, Mediterranean sunsets and late-night club moments, drawn from time spent in Andalusia, Ibiza and Berlin.

On the floor, Hybrid Flight has shared line-ups with Rick Wade, Kenny Larkin, Tijana T., Perel, Move D and Rampa, among others. The recorded work sits on Vacare Edition; the long-form mixes live on SoundCloud.
